CHARLES A. REESER,

INNISFALLEN GREENHOUSES,

SPRINGFIELD, OHIO.
I N THE FOLLOWING LIST of Ever-Blooming Roses, purchaser's selection of varieties will be given, but not an excess of any one variety. We are usually able to give customers what they call for; but a little latitude must be granted us in the proportion given in order that particular varieties may not become exhausted. Not less than Ten or more than Twenty sorts will be given in each one hundred, at the prices here named; if you wish a quantity of some special sort write for quotations.

We never substitute, unless so ordered; but if, as sometimes happens, one variety called for has become exhausted, the number of plants in that variety are divided among the other varieties ordered, so that the order may be filled in full.

**GERANIUM BRUANT.**

**GERANIUM "BRUANT," THE GIANT AMONG GERANIUMS.**

This magnificent Geranium is the product of M. Bruant of Poiitiers, and is the beginning of a new and distinct habited section in the Zonale family. It is very difficult to describe the difference between this type and the ordinary Zonale, but the distinction can be seen at a glance when Bruant is seen growing beside the older sorts of the same family. The leafage is round and nicely zoned, having greater substance and heavier texture than even the most vigorous of the old type. Color of the flower is light vermilion red of a most pleasing shade. The flowers are absolutely perfect in shape, color and makeup, trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. It does finely in the open ground, and is perfectly reliable as a bedding Geranium of the highest merit. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots.

Try a dozen or more of this beautiful Geranium in a bed or clump and it will delight you the summer through with its handsome foliage and pleasing color.

5 CENTS EACH; $4.00 PER 100.
